

CLOUD MIGRATION

Services

Simplifying The Science Of The Cloud

The thought of 'transitioning my business to the cloud' can be an overwhelming prospect for many business owners.

Vinergy's Cloud migration service can offer many advantages to businesses seeking to move to the cloud, however how do you know if it's the right next step for your business? If so, where do you even start and once you've moved to the cloud, then what next?

Vinergy's 4 Stage Cloud Migration Services include :

1. Assessment – develop migration proposal
2. Plan – develop detailed migration plan
3. Migrate – execute the plan
4. Management – provide managed services

Vinergy can help you step through this often complex processes with confidence, we understand no two cloud migration projects are the same, so we start by understanding your key requirements and current challenges and working on a strategy that's specific for your business.

The Vinergy Difference

- We are local and like-minded – we too are business owners and decision makers.
- Our team is experienced, knowledgeable and competent.
- Our approach is non-corporate, non-jargon professionalism.
- We are proactive, responsive and accountable.
- You will have a single point of regular contact.

Our 5 Point Customer Promise

1. We will treat your business as if it were our own
2. We will keep your business running
3. We will make your life easier
4. We will allow you to focus on what you do best
5. We will make your business smarter, stronger and help it to grow faster.
