

## CLOUD STRATEGY

Solutions

### Take Your Business To New Heights

Thinking of transitioning to the Cloud and unsure where to start? Or perhaps you're not entirely sure what the Cloud is and if your business actually needs it.

Simply put Cloud computing is the delivery of computing services – including servers, storage, databases, networking, software, analytics and intelligence over the internet (the cloud) to offer faster innovation, flexible resources and economies of scale.

Key benefits to take your business to the cloud;

- Cost Savings
- Security
- Work from anywhere anytime
- Disaster Recovery
- Competitive edge
- Increased collaboration

Typically you only pay for cloud services you use.

This helps your business lower operating costs, run your infrastructure more efficiently and scale as your business needs to change.

#### The Vinergy Difference

- We are local and like-minded – we too are business owners and decision makers.
- Our team is experienced, knowledgeable and competent.
- Our approach is non-corporate, non-jargon professionalism.
- We are proactive, responsive and accountable.
- You will have a single point of regular contact.
